Currently, the primary goal of the program is to guide and support developmental educations students through the attainment of their first 30 college credits.

Join the mentors already making a difference in a student’s life and in their educational goals. Have you ever had a mentor? If so, remember how it felt to have someone in your career? If not, do you remember how much you wanted someone to turn to that could help you through some decisions you were facing? Now is the time where you can be that person, that mentor, and that guide.

By giving a little bit of your time and energy, you can help provide our students the support they greatly need.

Mentees

The mentoring program will connect you to a fellow student, faculty or staff member ready to be there for you throughout your time at EPCC.

Your mentor will connect with you one-on-one to discuss your plans and challenges at least three times during the semester, usually at the beginning, midpoint, and at the end of the semester.

Your mentor will help you problem-solve if you have family/work issues interfering with college success. Your mentor will help you stay informed about key dates/deadlines critical to students. They will share from their personal experience how to overcome challenges to succeed in college. Your mentor will provide mentoring support to you for at least one academic year, and can continue for a second year if you both agree.

Your mentor will be there to help you reach your educational and career goals.
