Distance Testing Request Process

(for EPCC College Placement Testing)

www.epcc.edu/testingservices

Telephone: (915) 831-3221 or 2305

If you live outside of the El Paso, TX area and plan to attend EPCC, then Testing Services can help you arrange to take the EPCC college placement tests at a local college or university near you so that you can save travel time and costs to come to El Paso for your required testing. Just follow these easy steps.

1. **Complete your EPCC Admissions application.** You will need your EPCC ID number in order for you to continue to step 2... – call (915) 831-2265 for further information.
2. Contact the testing center of your local area college/university to ask if they will proctor your placement test for you. The local test site must have Internet access and be willing to proctor the TSI Assessment On-line Computerized Tests. The proctor must complete the “Proctor Agreement” (page 2) and fax it to EPCC Testing Services at (915) 831-2342.
3. Pay for your EPCC placement test - \$29 for initial test (or \$15 per subject if a retest is necessary). Use the attached credit card payment form (page 3) to fax your payment authorization to EPCC.
4. Once Testing Services has received confirmation that you have completed steps 1 – 3 above, we will arrange for your test to be administered by your local proctor on a specified date. You will be responsible for paying any local proctoring fees charged by the local test center to proctor your test.
5. Before taking the TSI Assessment, you are required to take PAAM (Pre-assessment activity module). PAAM is an online information module that will allow you to experience firsthand what you might find on the actual TSI Assessment. The module has sample questions for the writing, essay, reading and math part with immediate feedback on your responses.
6. Once you complete the PAAM you will be able to take the TSI Assessment Tests which will include areas on writing, an essay, reading and math parts. Also look for the form “What your scores mean” to view EPCC course recommendations based on scores achieved. Your scores will determine which classes you will be able to enroll in at EPCC. Prepare well and do your very best on your test.
7. When the local test center notifies us that you have completed your test, Testing Services will post your test scores to your EPCC record and a counselor or advisor will contact you about which courses you are eligible to enroll in at EPCC.

Good luck on your placement test and welcome to El Paso Community College! We look forward to having you join our other students who already know that EPCC is “The Best Place to Start!”
