Immunization and Blood Titer Requirements for Health students

Immunization and Blood Titer Requirements for Health students based on combining the UMC & HCA protocols and meeting the most stringent components. Blood titer results for Hepatitis B, Measles, Mumps, Rubella, and Varicella are required and students are **recommended to wait 4-6 weeks after finishing the last dose of a series before having blood Titors.**

---

# Student counseling is done for negative titers to explain a “non-responder” status and related pertinent information and precautions.

Immunization and Blood Titer Requirements for Health students

**MMR IgG Antibody Blood Titer** (Initial series of 2 vaccines or student had illness)

- Measles IgG Antibody Blood Titer (Rubeola)
  - **Negative** Blood Titer
    - Negative Equivocal Blood Titer
      - No more vaccines or titers
    - Negative Inconclusive Blood Titer
      - No more vaccines or titers
    - Positive Blood Titer
      - No more vaccines or titers
  - No more vaccines or titers

- Mumps IgG Antibody Blood Titer
  - Negative Blood Titer
    - Negative Equivocal Blood Titer
      - No more vaccines or titers
    - Negative Inconclusive Blood Titer
      - No more vaccines or titers
    - Positive Blood Titer
      - No more vaccines or titers
  - 2nd Series of 2 Vaccines

- Rubella IgG Antibody Blood Titer
  - Positive Blood Titer
    - Positive Equivocal Blood Titer
      - No more vaccines or titers
    - Positive Inconclusive Blood Titer
      - No more vaccines or titers
  - Negative Blood Titer
    - Negative Equivocal Blood Titer
      - No more vaccines or titers
    - Negative Inconclusive Blood Titer
      - No more vaccines or titers
  - 2nd Series of 2 Vaccines

**VARICELLA IgG Antibody Blood Titer** (Initial series of 2 vaccines or if student had Chicken Pox illness)

- Negative Blood Titer
  - Negative Equivocal Blood Titer
    - No more vaccines or titers
  - Negative Inconclusive Blood Titer
    - No more vaccines or titers
  - No more vaccines or titers
  - No more vaccines or titers
  - No more vaccines or titers
  - No more vaccines or titers

- Positive Blood Titer
  - No more vaccines or titers
