I. Catalog Description

Provides an introduction to the fundamental terminology, concepts, theory, and application of three-dimensional design. Both two dimensional and three dimensional concepts will be explored with an emphasis on originality and creative problem-solving. **Prerequisite: ARTS 1311. (2:4). Lab fee.**

II. Course Objectives

Upon satisfactory completion of the course, the student will be able to:

- A. Express the understanding of the two-dimensional format and demonstrate three-dimensional design through assigned projects.
- B. Apply color theory and the knowledge of pigments to a specific design project (s).
- C. Apply concepts of abstraction to utilitarian manufactured objects as forms in a design project.

III. Evaluation

- A. Pre-assessment

Instructors should check each student's prerequisites the first week of class; those who do not qualify should be sent back to Admissions.

- B. Challenge Exam

There is no challenge exam for this course.

- C. Post-assessment

Each student's grade will be determined by the instructor upon successful completion of the course objectives. Instructors will maintain adequate records of student progress according to the guidelines established by the college.

- D. Remediation

Remediation will be determined by the individual instructor. During this time the student is encouraged to seek the advice of the instructor. Remedial work or study will not be in place of regular open studio or outside study/practice activities.
