# I. Catalog Description

Provides students with the foundation to successfully transition to the college learning environment. Students will expand their knowledge of academic strategies; develop successful learning habits; identify personal learning styles, personality types, and career choices; apply learning strategies in various academic fields; develop critical-thinking competencies; and enhance their use of computer technology. These skills will provide the basis for lifelong learning and for making education personally meaningful. **Prerequisite: READ 0309 or INRW 0311 or ESOL 0340 (can be taken concurrently) or by placement exam or ENGL 1301 with a "C" or better or ENGL 1302 with a "C" or better. (3:0).** 

# II. Course Objectives

Students will demonstrate mastery of the course objectives through the completion of a research project, self-reflection activities, class presentations, and other assigned activities. Each activity will be designed to meet the following three goals:

- 1. Strengthen students' academic performance and facilitate their transition to college by inviting independent research, reading, and writing through each unit.
- 2. Enhance students' study skills, critical thinking skills, and communication skills. The latter includes effective use of oral, written, and electronic communication.
- 3. Increase student-to-student and student-to-faculty interactions leading to increased opportunity for cooperative educational activities and mentoring.

## A. Unit I – Application of Effective Academic Strategies

Upon satisfactory completion of this unit, students will exhibit knowledge of efficient academic strategies as evidenced by:

- 1. Demonstrating effective critical thinking skills including creative thinking; innovation; inquiry; and analysis, evaluation, and synthesis of information.
- 2. Demonstrating effective communication skills including effective development, interpretation, and expression of ideas through written, oral, and visual communication writing skills.
- 3. Demonstrating effective empirical and quantitative skills including the manipulation and analysis of financial resources resulting in informed conclusions.
- 4. Demonstrating effective problem-solving skills including defining and analyzing problems and creating and evaluating solutions.
- 5. Demonstrating effective academic strategies including time management, note-taking, and test taking skills.

Revised by Discipline: Fall 2012 (next revision in 3 years)

6. Incorporating Internet resources into course assignments such as research papers, class presentations, and discussions and using computer technology in the generation and delivery of materials.

#### B. Unit II – Factors that Impact Learning

Upon satisfactory completion of this unit, students will apply information about successful learning as evidenced by:

- 1. Demonstrating effective teamwork skills including the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- 2. Demonstrating personal responsibility including the ability to connect choices, actions, and consequences to ethical decision-making.
- 3. Demonstrating social responsibility including the retrieval, analysis, and use of information related to civic responsibility and the significance of our communities.
- 4. Developing personal wellness plans including holistic health assessment(s) and stress reduction techniques.

#### C. Unit III-Personal Educational and Career Plans

Upon satisfactory completion of this unit, students will incorporate the skills and knowledge accumulated in this course by developing personal educational plans as evidenced by:

- 1. Setting achievable goals including the identification of personal, educational, and career goals.
- 2. Developing personal learning plans including the identification of personal learning styles and useful college resources.

#### III. Evaluation
