

# El Paso Community College

## Syllabus

### Part II

## Official Course Description

<b>SUBJECT AREA</b>	<u>Physical Therapist Assistant</u>
<b>COURSE RUBRIC AND NUMBER</b>	<u>PTHA 1309</u>
<b>COURSE TITLE</b>	<u>Introduction to Physical Therapy</u>
<b>COURSE CREDIT HOURS</b>	<u>3    2    :    4</u> Credit   Lec    Lab

### I. Catalog Description

Provides an introduction to the profession of physical therapy and role of the physical therapist assistant includes the application of basic to patient handling, functional skills. Communication and selected data collection techniques. Field trips and supervised learning experiences supplement this course. Students who complete this course will be eligible for employment as a physical therapy aide. A grade of “C” or better is required in this course to take the next course. **Prerequisite: HPRS 1206. (2:4). Lab fee. Professional Practice Insurance required.**

### II. Course Objectives

Students will demonstrate knowledge of the history, purpose, and scope of physical therapy; recognize the roles and responsibilities of the PTA in physical therapy and the health care delivery system; perform basic handling and functional skills; and utilize basic communication skills. DACUM skills and skills identified in the Normative Model for PTA Education (NM) are included in the syllabus for this course.

Upon satisfactory completion of this course, the student will be able to.

- A. Unit I. Introduction to the Profession of Physical Therapy
  - 1. Discuss the historical events on the evolution of the Physical Therapist Assistant.
  - 2. Identify the legal and ethical standards of professional conduct as delineated by the American Physical Therapy Association and the Texas and New Mexico Practice Acts.
  - 3. Utilize various published resources including the Internet to explore hot topic issues related to the practice of Physical Therapy at the state and national levels.
  - 4. Contrast the role of the PT, PTA, and PT tech.
  - 5. Demonstrate competency of skills taught by successful completion of “Lab Skills Check-off Manual”.
  - 6. Introduce the concept, terms and role of evidence based practice in physical therapy.
  - 7. Identify and respond to cultural differences in the work place and in patient care.
  - 8. Maintain Basic Life Support (BLS) Healthcare with AED certification.
  
- B. Unit II. Components of Data Collection Skills Essential for Carrying Out the Plan of Care
  - 1. Discuss the rationale for assessing vital signs.
  - 2. Discuss the various norms for blood pressure, respiration, and heart rate in the adult, youth, and child patient.

3. Demonstrates competency in performing components of data collection skills essential for carrying out the plan of care including measures height, weight, length and girth; blood pressure, pulse, p a i n , respiration rate and thoracoabdominal movements.
4. Recognizes and monitors responses to positional changes and activities.
5. Observes and monitors thoracoabdominal movements and breathing patterns with activity.
6. Communicates measures of aerobic capacity, endurance and anthropometric characteristics to the instructor in written and oral form.
7. Takes appropriate action in a mock emergency situation within the classroom.
8. Demonstrate competency with medical terminology related to body systems associated with data collection body systems.
9. Recognize and respond to Yellow and/or Red Flags as documented in patient's chart or observed during patient care.
10. Demonstrate basic documentation using the SOAP format including all pertinent patient information, basic data collection relevant to discharge planning, and completion in a timely manner.
11. Identify the common sections of the medical record.
12. Locate pertinent patient information in the medical record.
13. Identify and comply with all insurance regulations as related to Physical Therapy services.

C. Unit III. Preparation of the Clinical Environment for Patient Care

1. Identify general principles for managing the safety of the clinical environment.
2. Compare and contrast the various emergency codes used by local hospitals.
3. Discuss and practice in a mock situation how clinical settings respond to emergencies within the clinical setting: fire, abduction, cardiac responses, bioterrorist or terrorist response plans and active shooter.
4. Review basic infection control measures discussed at the City Wide Orientation.
5. Review and comply with all HIPPA regulations.
6. Identify symbols common to infection control seen in the hospital setting.
7. Perform proper hand washing techniques.
8. Perform proper draping techniques in the laboratory setting for various interventions.
9. Respect patients request for modesty and privacy.
10. Inspect and clean equipment prior to and after use.
11. Demonstrate competency with medical terminology related to body systems.
12. Demonstrate competency in patient interview to include: greeting patient, identifying using a minimum of two identifiers, establishing rapport, and obtaining consent for treatment.
13. Demonstrate competency in patient communication to include professional manner, active listening and providing necessary customer service.

D. Unit IV. Selected Components of Functional Training for ADL Activities Identified in the Plan of Care

1. Discuss the principles of body mechanics and normal posture as it relates to common ADL activities such as bathing, toileting, dressing, eating, grooming, bed mobility and moving in and out of sitting.
2. Demonstrate safe and proper lifting techniques to include lifting a minimum of 50 lbs. independently.
3. Select, demonstrate, and position a person in the positions of prone, supine, side lying, hooklying, trendelenburg, reverse trendelenburg.

4. Identify the different areas of pressure involved when a patient is in the positions of supine, prone, and side lying.
5. Identify patients at risk for pressure ulcers and differentiate between the stages.
6. Define minimum, moderate and maximum assistance as it relates to patient transfers.
7. Describe and demonstrate the following transfer techniques: standing, standing pivot, sliding board, one-man sliding, two-man.
8. Describe and demonstrate safe bed mobility and transfer techniques of patients for preparation of ADL activities, from one surface to a second surface, using proper body mechanics, in the following positions: recumbent position, sitting, and standing.
9. Use proper terminology and abbreviations to document the level of assistance and transfer technique used during bed mobility and transfer training.
10. Describe and demonstrate selected transfer techniques in the lab setting using proper body mechanics.
11. Instruct care givers in specific skills at a safe and appropriate level.
12. Assess patient's understanding and ability to demonstrate the principles of proper body mechanics.
13. Demonstrate competency with medical terminology related to body systems associated with patient safety.

E. Unit V. Selected Components of Functional Training for Using Assistive/Adaptive Devices Equipment Training and Components of Basic Gait

1. Label and demonstrate the following terms of gait: swing, stance, step length, stride length.
2. Define and demonstrate the following weight-bearing status: Non-weight-bearing; Toe touch, partial weight-bearing, full weight-bearing.
3. Identify and label the parts of the following categories of assistive and adaptive devices: wheelchair, cane, crutches, walker, long handled reachers, power devices), static and dynamic splints, hospital beds, commodes, and wheelchair seating system.
4. Adjust the parts of assistive and adaptive devices essential for carrying out the plan of care: wheelchair, cane, crutches, walker, long handled reachers, power devices, static and dynamic splints, hospital beds, commodes, and wheelchair seating systems.
5. Describe and demonstrate the safe use of selected assistive/mobility devices.
6. Describe and demonstrate the safety, status, and progression of patients while engaged in gait, locomotion gait, and wheelchair management and mobility.
7. Communicate verbally and non-verbally with the patient the physical therapist, health care delivery personnel, and others in an effective, appropriate, and capable manner.
8. Adjust interventions and progress the patient with the plan of care written by the supervising physical therapist.
9. Inspect assistive/adaptive/mobility equipment for needed repair/replacement.
10. Demonstrate competency with medical terminology related to body systems associated with ambulation training.
11. Identify appropriate assistive device for patient needs
12. Demonstrate and instruct patient in the following gait patterns while using an assistive device: 4-point, 3-point, 2-point, 4-point modified, and 2-point modified.
13. Demonstrate basic gait training on level and un-level surfaces to include stairs, curbs, and ramps.

F. Unit VI. Manual Therapy Techniques: Passive Range of Motion

1. List the cardinal planes of motion.
2. Define flexion, extension, rotation, diagonal movement, abduction, adduction, internal/external rotation as it applies to passive range of motion.

3. Differentiate between AROM, AAROM and PROM.
4. Perform PROM exercises to all major joints of the body.
5. List indications and contraindications for PROM exercises.
6. Begin documentation of PROM.
7. Demonstrate terminology with medical terminology related to body systems associated with range of motion.

G. Unit VII. Pharmacology

1. Recognize common medications used for a variety of pathologies seen in physical therapy care.
2. Recognize common side effects from a variety of pathologies seen in physical therapy care.

### III. THECB Learning Outcomes (WECM)

1. Describe the history, purpose, and scope of physical therapy.
2. Identify the roles and responsibilities of the physical therapist assistant.
3. Describe principles and techniques of patient handling and functional skills.
4. Demonstrate basic patient handling and functional skills, selected data collection techniques, and communication skills.

### IV. Evaluation

A. Grading Policy

1. The students' final grade is determined based on a percentage assigned to specific sub-categories of work.  
The commonly used categories of work include: 1) Examinations (Written and/or practical), 2) quizzes, 3) written homework (lab activities, online work sheets), and 4) projects/community service/ instructor required observations.
2. The specific percentages assigned to the sub-categories of work are typically 80-90% for examinations, 10% for quizzes and 10% for homework and/projects. However, students are directed to *Part 1 of the Syllabus: Instructor's Course Requirements* for the specific grading criteria for each sub-category and the final grade.
3. Graded work within in each sub-category is averaged and multiplied by the percentage applied to that subcategory. Thus a student who received a 90, 85 and 45 for a subcategory would have an average of 73.3. If that category was worth 20 percent of the final grade, then the student would receive a total of 14.6 points toward the final grade.
4. The final grade, is calculated based on 100% (100 points) and will be rounded to the nearest whole number.  
Example:  $86.5 = 87$
5. Grading Scale:  
The grading scale used the PTA program for all of its courses is as follows: 94-100 = A  
87-93 = B  
80-86 = C  
73-79 = D  
72 and below = F
6. Final grades:

Students who fail to complete assigned work within each of the sub-categories will receive a final grade based on the summative calculations of each sub-category.

7. Grading of late work: All course work is due on the date identified by the instructor. Late work may be accepted and or graded based on the discretion of the instructor. A student who submits assigned work late, may receive a zero for that work. This will affect the sub-category grade percentage, and may affect the final grade as well. Students are encouraged to submit assigned work on time. See Part I of the Syllabus: Instructors requirements for more details about the grading of late work.
8. The "I" grade is assigned when the student has arranged with the instructor to postpone completion of the requirements of the course. To be eligible for an "I" the student must be passing the course. Under the institutional grading policy, the awarding of any "I" grade requires a contractual agreement between the student and faculty member to establish the requirements for the student to satisfactorily complete the course. The student must submit the request in writing to the instructor stating extenuating circumstances with supporting documents. ( College procedure 7.04.02.18)
9. Students who receive a grade of Incomplete in a course which is a prerequisite course for another PTHA course may not be able to register for the next PTHA course until the "I" grade is replaced by a letter grade.

B. Progression within the program

Students must receive a grade of "C" in all program courses and must remain in good academic standing with the college or its department to progress in the program. Students not meeting this criteria may be in- eligible for readmission. Students are referred to program procedure titled *Guidelines for Progression and Readmission in the Physical Therapist Assistant*,

C. Pre-assessment/Post-assessment/Remediation

1. Students who at midterm are identified as failing a course will be formally counseled with a remediation plan.
2. Some courses may require pre-assessment prior to enrollment in the course. Courses typically requiring pre-assessment include all Clinical/Practicum courses except for the first clinical course. See *Part I of the Syllabus: Instructor's Course Requirements* for specific information.
3. Some courses may require post-assessment at the conclusion of each course, and may be in the form of a comprehensive practical exam. See *Part I of the Syllabus: Instructor's Course Requirements* for specific information.

D. Attendance

1. Students are expected to be prepared and present for each class/lab session.
2. Homework is due at the beginning of the class.
3. Students who are absent from class are responsible for all material.
4. Attendance will be taken for each lecture and lab class.
5. You are considered "late" after class is officially scheduled to begin.
6. Students are expected to contact the instructor prior to being absent by calling on our office phones and leaving a message or informing us in person prior to the

expected absence.

E. Tardiness

1. The door will close at the beginning of class.
2. Students who are late will not be admitted to class until the first break.
3. Students who have informed the faculty, that they will be tardy, may be admitted into the classroom, at the instructors' earliest convenience.

F. Writing Assignments/Homework/Projects

Students will be required to complete all assignments in order to successfully complete this course.

1. Homework is expected to be completed prior to class and presented to the instructor at the beginning of class.
2. All work is to be handed in on time and in a folder labeled with your name.
3. Late work may be accepted at the discretion of the instructor.
4. Late work may not necessarily receive full credit.

G. Exams

1. If a student must miss an exam, he/she must notify the instructor prior to the exam.
2. Failure to notify the instructor in advance that a student will be absent for the exam, **for any reason**, will result in a grade of "0" for that exam.
3. Make-up exams may be given at the discretion of the instructor. The make-up exam must be taken within the time frame stipulated by the instructor. Failure to take any make-up exam will result in a grade of "0."
4. Students who fail a unit exam will be redirected back to the particular unit or units for additional reading and home work assignments.
5. Students may not bring anything into the testing area other than a #2 pencil. Books, coats, book-bags, back-packs are to be placed neatly away from the testing area.
6. Students should take care of any personal needs prior to the beginning of the examination.
7. No cell phones or other forms of communication devices are allowed in the testing area during an examination.
8. Course Instructors are required to turn in all written exams to the PTAP ProgramCoordinator.

H. Practical Exams

1. Students will demonstrate competency on technical and communication skills in the lab practical.
2. Program policies applying to exams, applies to the lab practical exam.
3. Some practical exams may be scheduled out of ordinary class time and at a hospital or clinical setting.  
Students will be required make necessary arrangements to be at all scheduled exams. The student will be required to attend the practical exam at the set location, date and time established by the instructor.

4. Students are expected to abide by all program policies when in situations in which they represent EPCC and the PTA program.
5. The student is judged to be competent when able to perform components of data collection and components of interventions safely, correctly, effectively, and with knowledge of indications, contraindications, precautions and expected results of the interventions.
6. Each practical exam must be passed with a minimum score of 80% in order to have successfully completed that practical.
7. Practical exams may be offered at the discretion of the instructor. Student who fail a critical safety element will not be allowed a retake.
8. There will be no make-up exams for missed practical.
9. Any missed practical will receive a zero.
10. Course Instructors are required to turn in all completed practical exams to the PTAP Program Coordinator.

I. Student readiness/Skill Check off Sheets

1. Prior to the practical exam, students may be given student readiness/skill check off sheets. These sheets are designed to assist the student in demonstrating readiness for the practical exam. These sheets can be used in a peer-to-peer situation or by the instructor.
2. All check-off sheets must be signed by the lab instructor by the set date established.
3. Program policies applying to exams, applies to the process of skills check off as well..
4. The student is judged to be competent when able to perform components of data collection and components of interventions safely, correctly, effectively, and with knowledge of indications, contraindications, precautions, and expected results of the interventions
5. Lab Instructors are required to turn in all student readiness/check off sheets to the PTAP Program Coordinator.

J. Quizzes

1. No make-up quizzes will be given.
2. Students missing a quiz will receive a "zero", unless prior arrangements have been made with the instructor.

K. Presentations

1. Presentations will be done at the front of the class to an audience.
2. Students are expected to utilize appropriate media
3. All presentations will require a hard copy to the instructor and the remainder of the class.
4. Students must be professionally dressed for all formal presentations.
5. All visible tattoos must be covered.

L. Preparation for Class/lab

1. Students are expected to be prepared for class.
2. Being prepared means having completed the reading assignment covering the day's materials so that you are prepared to discuss the material or answer questions.
3. Assigned homework activities are expected to be completed.
4. Students qualify for an "unexcused absence" when they are not prepared for discussion, are considered delinquent, or incomplete in their homework.

M. Professionalism and Community Participation

1. As students enrolled in EPCC, you are expected to abide by the policies and procedures outlined in the “Student Code of Conduct”, which can be found online on the college website and in the current college catalog.
2. As students enrolled in the PTA Program you are expected to abide to the policies and procedures of the PTA program and the behaviors outlined in the *APTA Standards of Ethical conduct for the PTA*.
3. Infraction of college, division or program policies may result in your dismissal from the PTA Program and/or college.
4. Students will demonstrate the behaviors, values, and attitudes of the profession of physical therapy and the standards of ethical and legal practice in accordance with state law, the American Physical Therapy Association Standards of Ethical Conduct for the Physical Therapist Assistant and Generic abilities. Generic abilities are behaviors that we expect you to develop while in the PTA Program. These abilities provide a foundation for successful interpersonal interaction, learning and clinical performance. These behaviors will be assessed at various times during your PTAP course work, and can be found in such places as “Skill Check-off Sheets,” “Practical exams,” and the “PTA MACS” – and the “Professional Therapist Assistant Program Evaluation Tool.”
5. Students will participate in community service, leadership and career planning in preparations for employment and continuing competency. Documentation of attendance is required. All visible tattoos must be covered when the student is representing the program both on and off campus. Community service requirements are specified in the *Instructor’s Course Requirements*. SPTA Club activities do not apply

N. Dress Code for Lab

1. Students should arrive to lab dressed in the designated shirts and shorts. In addition, women are required to wear either a halter top or sports bra. Long hair should be tied back. Nails should be trimmed very short. Avoid jewelry, only a wedding band and non-dangling earrings may be worn.
2. Students not appropriately dressed for lab will be provided with a hospital gown.

O. Journals

1. Reflective journals may be required each semester and are specified in the Instructors Part 1 specific syllabus.
2. Reflective writing should a) include your observations and reflections about how you are learning what you are learning and b) a discussion of your successes and difficulties with your learning strategies.
3. Students will be expected to keep a journal on a weekly basis throughout the course.
4. The size of paper to be used is 8"x11" and should be kept in an 80-page spiral binder.
5. Journal entries should be a minimum of once a week and should be dated.
6. One line is allowed between entries. You should use the entire line, leaving **either** the left or right margin free but not both margins.
7. Please do not use “gel” paper for your journals.
8. These journals may be in the form of weekly email, or discussion boards on Blackboard.

The content of the journal itself will not be evaluated; however, it should focus on the criteria outline above.

All entries are confidential. Journals are yours to keep at the end of the semester. The grade on the journal will be specified in the *Instructor’s Course Requirements*.

P. Electronic devices

1. All electronic devices shall be in silent mode prior to entering the classroom.

2. All electronic devices shall be stored in your backpacks, purses, etc., so that they are not visible to the instructor, nor a distraction to the student and classmates.
3. Students expecting a call which is of an emergency nature (medical or school related call about a child or other family member), should inform the instructor prior to the beginning of class. The device then can be placed in vibration mode and place with the instructor.
4. The instructor will then return the phone to the student, should the phone vibrate, and the student will exit the classroom to handle the emergency.
5. All electronic devices must be turned off and stowed away, in purse or backpacks, which are then placed in an area designated by the instructor, during testing situations.
6. Faculty are encouraged to abide by these guidelines as well.

**Q. Children in the Classroom**

The college has a policy on children in the classroom. Children are not generally permitted in the classroom.

**R. Informed Consent**

Students who are enrolled in this class may be asked to play the part of the patient, care-giver of the patient, or other role as defined by the situation during laboratory classes, practical exams, or other classroom experiences.

**S. Privacy and Confidentiality**

Students are expected to ensure that the privacy of their classmates, faculty, and classroom guests is maintained at all times. Students who have access to medical or personal information that by law is to remain confidential shall be required to maintain that confidentiality unless the person who owns the information releases that confidentiality.

**T. Honors Credit**

If you are participating in the Honors Program and wish to do a project for Honors credit, please see the instructor. Honor's projects are negotiated between the instructor and the student; they are completed in addition to regular course work assignments; you must complete the project according to the Honors Contract; and you must receive an "A" or "B" in the course.

**V. Disability Statement (Americans with/Disabilities Act [ADA])**

EPCC offers a variety of services to persons with documented sensory, mental, physical, or temporary disabling conditions to promote success in classes. If you have a disability and believe you may need services, you are encouraged to contact the Center for Students with Disabilities to discuss your needs with a counselor. All discussions and documentation are kept confidential. Offices located: VV Rm C-112 (831-2426); TM Rm 1400 (831-5808); RG Rm B-201 (831-4198); NWC Rm M- 54 (831-8815); and MDP Rm A-125 (831-7024).

**VI. 6 Drop Rule**

Students who began attending Texas public institutions of higher education for the first time during the Fall 2007 semester or later are subject to a 6-Drop limit for all undergraduate classes. Developmental, ESL, Dual Credit and Early College High School classes are exempt from this rule. All students should consult with their instructor before dropping a class. Academic assistance is available. Students are encouraged to see Counseling Services if dropping because exemptions may apply. Refer to the EPCC catalog and website for additional information.

**VII. Title IX and Sex Discrimination**

Title 9 (20 U.S.C. 1681 & 34 C.F.R. Part 106) states the following "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving Federal financial assistance." The Violence Against Women Act (VAWA) prohibits stalking, date violence, sexual violence, and domestic violence for all students, employees and visitors (male and female). If you have any concerns related to discrimination, harassment, or assault (of any type) you can contact the Assistant to the Vice President for Student and Enrollment Services at 915-831-2655. Employees can call the Manager of Employee Relations at 915-831-6458. Reports of sexual assault/violence may also be reported to EPCC Police at 915-831-2200.

### **PTAP PROGRAM: HONESTY POLICY**

All students shall obey the law, show respect for properly constituted authority and observe correct standards of conduct. (Student Code of Conduct) Specifically, students are referred to the EPCC handbook entitled Student Code of Conduct, Section II: Student Responsibility, Subsection 5 on Academic Dishonesty **or newer versions of this document**. This handbook is available through Student Government and the Counseling Department. Additionally, students are referred to the section on “**Policies and Procedures**” in the **College Catalogue**. The College Catalogue is available from the Cashiers office.

To ensure instructor(s) quality education and equality to all students in the Health Occupations Programs, the following special conditions will apply during testing situations in addition to those outlined in the EPCC Student Code of Conduct:

1. The instructor(s) controls the option of seating arrangement, movement, leaving the room, and stopping an exam for violation of the honesty policy.
2. All books, papers, notebooks, and personal belongings will be placed at the front of the classroom or other designated area before entering a testing situation.
3. Any information found on, or in the immediate vicinity of the individual during a testing situation will be grounds for termination of the testing. A grade of zero will be recorded and averaged into the final grade.
4. Any verbal or nonverbal communication between students during a testing situation will be grounds for termination of the testing. A grade of zero will be recorded and averaged into the final grade.
5. Should a student need to communicate with the instructor, he or she should remain seated and raise his/her hand.
6. **Infractions of the EPCC Student Code of Conduct may be grounds for dismissal from the program.**

Adopted by the PTAP Faculty

3/16/90

Revisions

April 17, 1996, May 11, 1998

Approved by provost: February 16, 1999

**EL PASO COMMUNITY COLLEGE  
HEALTH OCCUPATIONS DIVISION**

**CRITERIA FOR COURSE PURSUIT**

In accordance with El Paso Community College procedures on “Course Pursuit” (See current El Paso Community College Catalogue and Student Handbook), The Health Occupations Division has set the following standards to establish guidelines for determining when a student has ceased to pursue the course objectives:

1. In order to pursue the course, the faculty expect the students to attend classes and clinical as scheduled. There are 96 hours of instruction required to complete the course.
2. The Student will be able to make-up 0\_\_\_\_hours of theory or clinical.
3. Tardiness is defined as being late to class.
4. The student must follow the standards established in the Health Occupations Student Handbook and the PTAP\_\_\_\_Program Addendum. The student is bound by the standards in this Handbook as evidenced by the return of a signed/dated acknowledgment sheet.
5. Where the student continues to pursue the course objectives but is receiving failing grades, he/she will remain eligible to complete the course, EXCEPT in instances where unsafe practice occurs (See Unsafe Practice Procedure in Health Occupations Student Handbook and PTAP Program Addendum).
6. The student must appear for examinations, presentations, or other required class activities and submit required papers, projects, and/or reports as identified in the course syllabus and calendar.
7. Failure of the student to follow the above will indicate that the student is no longer pursuing the objectives of the course and will result in faculty-initiated withdrawal.
8. Appeals: The student has the right to appeal the withdrawal in accordance with El Paso Community College grievance and reinstatement procedures (See current El Paso Community College Catalog and Student Handbook).

Revised: January, 1998

PTHA 1309: Introduction to Physical Therapy

Students enrolled in this course will demonstrate competence in implementing the following selected components of interventions and/or data collection:

1. Body mechanics training
2. Basic ambulation training with assistive devices
3. ADL's for bed mobility and transfer training
4. Injury prevention and reduction with the use of devices and equipment
5. Passive range of motion
6. Application and adjustment of devices and equipment;
  - a. Adaptive devices
    - i. Hospital beds
    - ii. Raised toilet seats
    - iii. Seating systems
  - b. Assistive devices
    - i. Canes, crutches, walkers with UE additional supports
    - ii. long-handled reachers
    - iii. Power and manual chairs
7. Vital signs
  - a. Pulses
  - b. Blood pressure
  - c. Respiratory rate
  - d. Pain
8. measures height, weight using a standard scale
9. recognizes safety factors while using the devices and equipment
10. mechanical devices: tilt tables, standing frames, CPM
11. oxygen therapy: supplemental oxygen lines
12. standard infection control procedures for personnel and department equipment

**Receipt of Syllabus Signature page**

**I \_\_\_\_\_ acknowledge receipt of the syllabus for PTHA \_\_\_\_\_.  
Acknowledging receipt of this syllabus, implies, that I am responsible for the information  
contained within its pages. I also acknowledge, that changes may be made in this syllabus and  
that I will be notified in a timely fashion.**
