A. Grading Policy

1. The students' final grade is determined based on a percentage assigned to specific sub-categories of work.
The commonly used categories of work include: 1) Examinations (Written and/or practical), 2) quizzes, 3) written homework (lab activities, online work sheets), and 4) projects/community service/ instructor required observations.
2. The specific percentages assigned to the sub-categories of work are typically 80-90% for examinations, 10% for quizzes and 10% for homework and/projects. However, students are directed to *Part 1 of the Syllabus: Instructor's Course Requirements* for the specific grading criteria for each sub-category and the final grade.
3. Graded work within in each sub-category is averaged and multiplied by the percentage applied to that subcategory. Thus a student who received a 90, 85 and 45 for a

subcategory would have an average of 73.3. If that category was worth 20 percent of the final grade, then the student would receive a total of 14.6 points toward the final grade.

4. The final grade, is calculated based on 100% (100 points) and will be rounded to the nearest whole number.

Example: $86.5 = 87$

5. Grading Scale:

The grading scale used the PTA program for all of its courses is as follows:

- 94-100 = A
- 87-93 = B
- 80-86 = C
- 73-79 = D
- 72 and below = F

6. Final grades:

Students who fail to complete assigned work within each of the sub-categories will receive a final grade based on the summative calculations of each sub-category.

7. Grading of late work: All course work is due on the date identified by the instructor. Late work may be accepted and or graded based on the discretion of the instructor. A student who submits assigned work late, may receive a zero for that work. This will affect the sub-category grade percentage, and may affect the final grade as well. Students are encouraged to submit assigned work on time. See Part I of the Syllabus: Instructors requirements for more details about the grading of late work.

8. The "I" grade is assigned when the student has arranged with the instructor to postpone completion of the requirements of the course. To be eligible for an "I" the student must be passing the course. Under the institutional grading policy, the awarding of any "I" grade requires a contractual agreement between the student and faculty member to establish the requirements for the student to satisfactorily complete the course. The student must submit the request in writing to the instructor stating extenuating circumstances with supporting documents. (College procedure 7.04.02.18)

9. Students who receive a grade of Incomplete in a course which is a prerequisite course for another PTHA course may not be able to register for the next PTHA course until the "I" grade is replaced by a letter grade.

B. Progression within the program

Students must receive a grade of "C" in all program courses and must remain in good academic standing with the college or its department to progress in the program.
