

VPN Installation Instructions

- 1) Using Google Chrome, or Microsoft Edge, navigate to <https://vpn.epcc.edu>.
- 2) Log in to the site using your EPCC credentials:

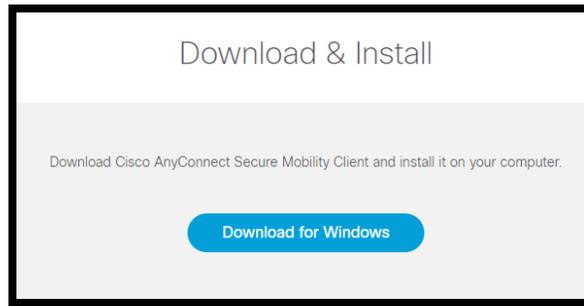

The screenshot shows a login form titled "Login". Below the title, it says "Please enter your username and password." There are three input fields: "GROUP:" with a dropdown menu showing "EPCC_VPN_Users", "USERNAME:" with the text "username@epcc.edu", and "PASSWORD:" which is empty. Below the fields is a "Login" button.

- 3) Read the warning and click on continue.

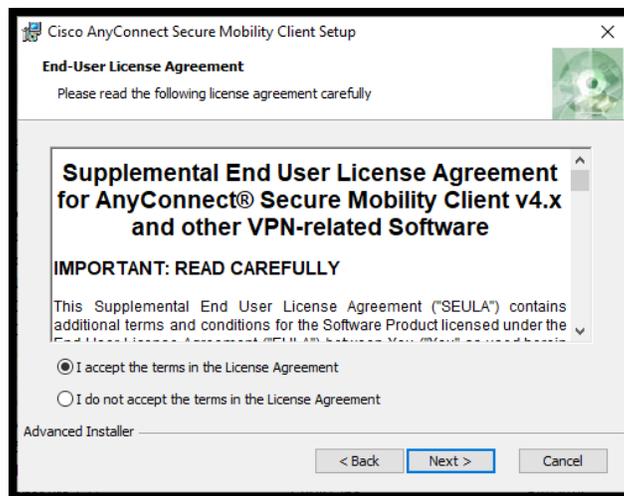

The screenshot shows a warning dialog box with the following text: "WARNING: You are connecting to the El Paso Community College network. Access to this network and all resources available on this network is restricted to authorized individuals. Use of EPCC computing resources must be in accordance with EPCC procedures for acceptable use of information technology and information security. By continuing to use this system you indicate your awareness of and consent to these terms and conditions of use. All activity on this network may be subject to monitoring." At the bottom of the dialog are two buttons: "Cancel" and "Continue".

4) Click on the download prompt to continue:

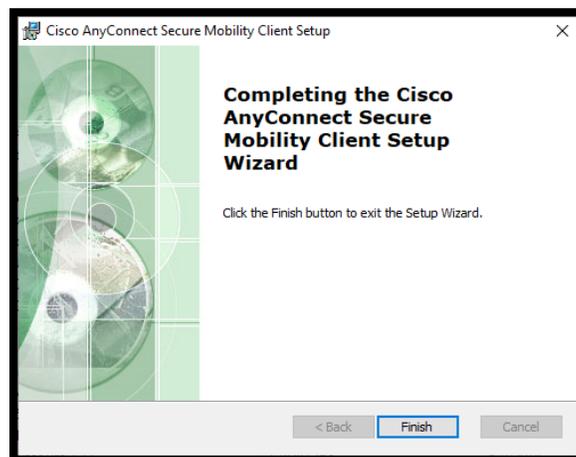

5) After the download completes, click on it and if prompted select Run/Install/Continue.

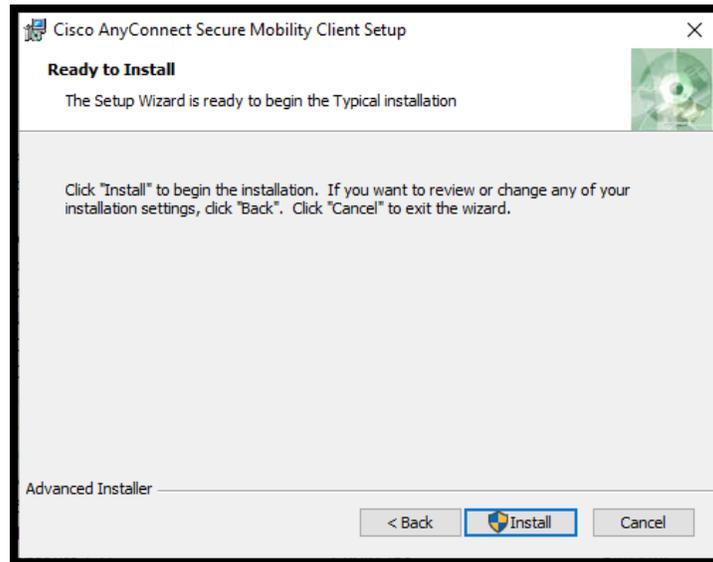

6) Select "I accept the terms..." and click Next to continue:

7) Click on Finish to continue:

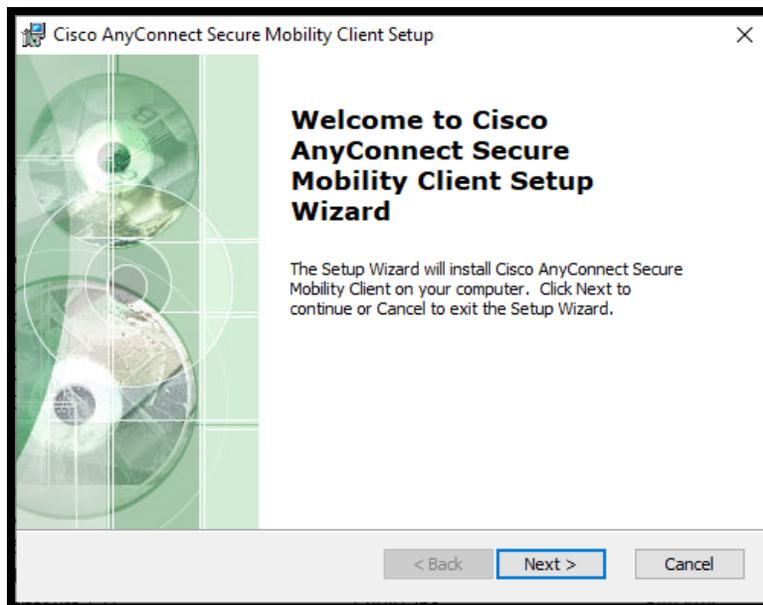

8) Click Install to begin the installation:

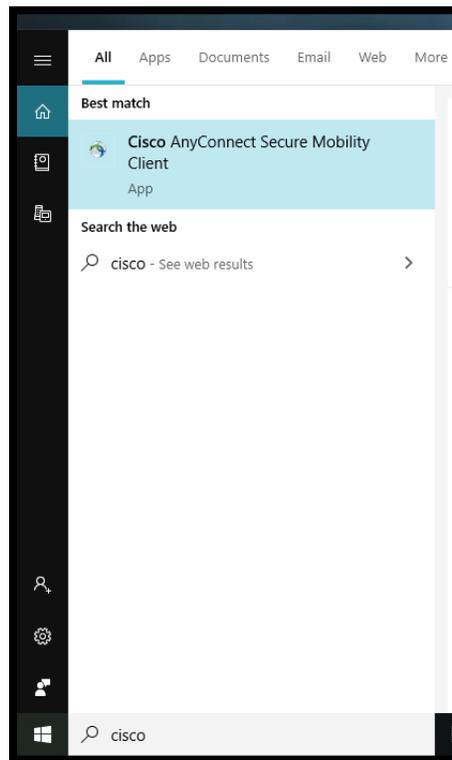

(You may be prompted an additional time by Windows to allow the installation)

9) Click on Next to continue:

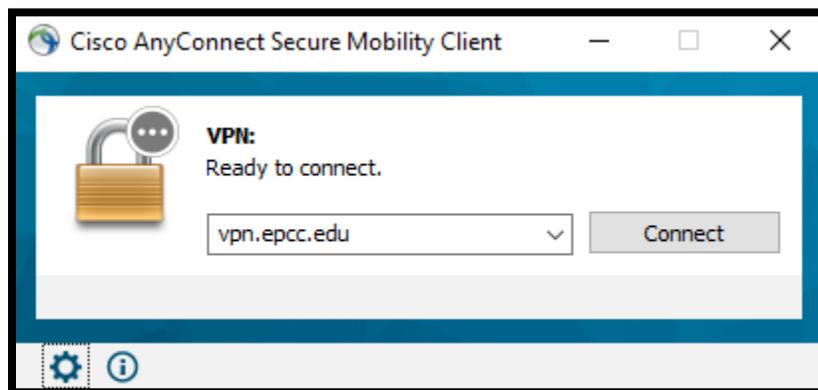

10) Once installation completes you may have to find the program if it does not appear on your desktop or load automatically. Do this by pressing the Windows key on your keyboard and typing in Cisco to search for it as shown below:

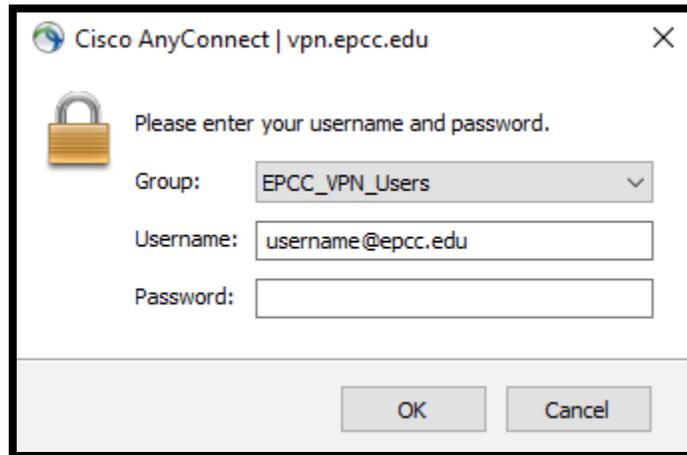

VPN Connection Instructions

1) Launch the Cisco AnyConnect client and click on Connect:

2) Log in using your EPCC credentials:

3) Accept the warning to continue:

4) Once connected you may see a prompt such as the one below, confirming your connection:

Disconnecting from the VPN

1) Find the Cisco AnyConnect client icon on your task bar:

2) Click on disconnect to end your session:
